Notice Concerning Postponement of Announcement of New Medium-term Management Plan

Sagami Holdings Corporation (the “Company”) hereby announces that, at a meeting of the Board of Directors held today, it resolved to postpone the announcement of the new Medium-term Management Plan.

1. Background to postponement of announcement of new Medium-term Management Plan

Due to the widespread impact of crude oil price trends stemming from Middle East tensions, as well as the uncertainty of how the consumption tax system will impact on customer traffic, the Company has determined that calculating appropriate and reasonable forecasts on its financial results over the medium-term is extremely difficult. Consequently, it has been decided to postpone the announcement of the new Medium-term Management Plan.

2. Future outlook

To enhance medium-to-long-term corporate value, the Company will continue strengthening human capital management, which serves as the framework of its management strategy. In order to realize the "Drivers for growth" set out in our business model, we will bolster the development of "human resource drivers"—the transformative elements for the "action and speed" that enable our human resources to power such growth.
